Summary: On June 29, 2004, Richard B. Severy, Director of State Regulatory-West, MCI, Inc. (MCI), met with Tom Long, advisor to Cmmr. Lynch, in San Francisco. Also present was William C. Harrelson, Senior Counsel, MCI. Written materials (attached to the notice) were used. MCI representatives explained why the increase to loop prices recommended in the proposed and alternate decisions was wholly unsupported by the record and would cripple competition. MCI pointed out that a correction of the errors in the Commission staff's run of Joint Applicant's (JA) proposed HMT.3 underlying the proposed decision would result in significantly lower loop prices, as would adoption of JA's appropriate recommended adjustments to SBC's LoopCat cost study.

Summary: On June 28, 2003, Tony DiStefano, Chairman and Chief Executive Officer of Arrival Communications, Inc. (Arrival), met with Cmmr. Kennedy; on June 29, 2004 – with Cmmr. Brown; and on July 1, 2004 – with Pres. Peevey, in San Francisco. At the meeting with Cmmr. Kennedy also present was Karl Bemesderfer, advisor to Cmmr. Kennedy, with Cmmr. Brown – Robert Wullenjohn, advisor to Cmmr. Brown, and with Pres. Peevey – Lester Wong, advisor to Pres. Peevey. Written material (attached to the notice) was used during the meetings with Cmmrs. Brown, Kennedy, and Pres. Peevey. DiStefano explained that Arrival is primarily a facilities-based carrier that plans to convert from UNE-P to UNE-L serving arrangements as soon as practicable. DiStefano noted that SBC must have in place a proven hot cut process that can seamlessly migrate loops from SBC's switches to Arrival's switches in a timely, reliable and cost-effective manner. DiStefano urged the Commission to establish hot cut rates that comply with TELRIC. DiStefano questioned the legality of the ILECs' contentions that high-capacity DS1 and DS3 loops are not longer required UNEs. DiStefano stated that these ILEC assertions are seriously damaging the CLEC sector by creating substantial uncertainty within the financial sector regarding the viability and longevity of competitive carriers. DiStefano urged the Commission to act as quickly as possible to clarify that the continued availability of high-capacity DS1 and DS3 UNE loops is a critical input for facilities based competition. With regard to the specifics of the proposed decision, DiStefano stated that the proposed true-up would have a serious negative effect on Arrival.

Summary: On June 29, 2004, Lad Lorenz, Vice President – Regulatory Affairs for San Diego Gas & Electric Company (SDG&E), met with Cmmr. Lynch and Julie Fitch, advisor to Cmmr. Peevey, in two separate meetings in San Francisco. At the meeting with Cmmr. Lynch also present was Darwin Farrar, advisor to Cmmr. Lynch, and with Julie Fitch – Roosevelt Grant, advisor to Cmmr. Peevey. Billy Blattner, CPUC Relations Manager for SDG&E, participated in both meetings. Lorenz indicated that SDG&E supports the alternate draft decision of Cmmr. Kennedy which would approve the project as proposed by SDG&E. Lorenz stated that the ALJ's draft decision would approve the project with costly underground segments that will delay the in-service date at least eight to twelve months while significantly increasing direct and indirect costs to ratepayers with no substantial benefits. Blattner noted that the Environmental Impact Report (EIR) concludes that the project as proposed would have no significant environmental impacts under SDG&E's project protocols and mitigation measures in the EIR. Lorenz added that the EIR inappropriately weighted minor visual concerns over all other environmental impacts and did not account for the feasibility or cost of the route changes.
